# minutes

- 48 hours approval process for teachers for verification
- Then adamin will confirm whether the teacher verified,
- Lets not make it too complex
- For now anyone can register as a student
- Even before login the yser should able to see al courses
- After login the student should able able to view his enrolled courses
- Once you are not logged in but you click enrol,

[{"id":1,"customerId":1,"orderDate":"0001-01-01T00:00:00","total":22,"items":[]},{"id":2,"customerId":1,"orderDate":"0001-01-01T00:00:00","total":22,"items":[]},{"id":3,"customerId":1,"orderDate":"0001-01-01T00:00:00","total":22,"items":[]},{"id":4,"customerId":1,"orderDate":"0001-01-01T00:00:00","total":22,"items":[]}]

- Client demos how a microservice application is built
- Always expose your interface not the class

```
